Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

- 1.** Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I.** Claims 1, 2, 4, 5, 8, 10, 12, 13, 16, 19, 20, 23, 25, 27, 28, 31, and 33-38, drawn to a method of optimizing a Vickery auction, classified in class 705, subclass 1.
 - II.** Claims 3, 6, 7, 9, 11, 14, 15, 17, 18, 21, 22, 24, 26, 29, 30, and 32, drawn to a method of optimizing a Vickery auction, classified in class 705, subclass 1.
 - III.** Claims 39-44, drawn to a method of using a computer system and a communication network for facilitating a transaction between at least one seller and at least one buyer, classified in class 705, subclass 26.
- 2.** The inventions are distinct, each from the other because of the following reasons:

Inventions **III** and **II** and inventions **III** and **I** are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the transaction system of claim 39 does not

require the method steps of claims 1 or 3, directed to a Vickery auction. The subcombination has separate utility such as an online auction service.

Inventions II and I are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as selecting winning bids based on the calculated optimum selling price. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. Because these inventions are distinct for the reasons given above and the search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper.
5. A telephone call was made to Robert Shaddox on 12 April 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.
6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to **James A. Reagan** whose telephone number is **(703) 306-9131**. The examiner can normally be reached on Monday-Friday, 9:30am-5:00pm.
